

Mushin Racing Press Release

Mushin Racing's Kodi Ward

Mushin Racing Youth Claim 4 Pleasure Valley Podiums

Reynoldsburg, OH / July 5, 2010 / More and more, Mushin Racing's youth team finds itself standing on the podium at more and more events of the 2010 AMA-ATV Motocross Championship series. On the 4th of July at Pleasure Valley MX in Armagh, PA during Round 8 of this year's national series, Mushin Racing's Kodi Ward, Tanner Stockton and Maci Devenport carried the Mushin Racing colors to the podium in three separate classes.

In the 90 Automatic Junior (8-11) class, Kodi Ward put together 1-3 moto scores to finish the event with a 2nd place finish overall. This noted Wards second consecutive 2nd place finish in as many rounds and, after missing two rounds of this year's series due to an injury, indicated his desire to continue to climb to the top of the rankings. After 8 of 11 rounds he found himself a mere 3 points out of 6th and a meager 5 points away from notching himself into the top five in the class overall series' standings.

Tanner Stockton, a 90 Auto Senior (12-15) class Mushin Racing competitor, brought down a solid 3rd place overall finish in the class at Pleasure Valley and continued his march toward a top three ranking in the class. After the Armagh, PA round, Stockton sat in 5th place in the overall series' class standings, only 4 points out of 4th.

She's got what it takes and, as the 2010 MX Nationals head into the latter rounds of the season, she appears to be on a brutal mission of agitating numerous young male egos. Competing in the predominately male infested youth classes, Maci Devenport shows no indications of allowing the boys to get the best of her. At Pleasure Valley MX during Round 8 of the 2010 AMA-ATV Motocross Championship series, Devenport romped and stomped her way to a 2nd place overall finish in the 90 Auto Senior (12-15) class and elevated her overall series' ranking in the class from 3rd to 1st. To add injury to insult to her male counterparts, she also pulled in a 3rd place overall finish in the 90 CVT (8-15) class.
